

# Today's challenges

## Brandenburg 3D

- \* Proof of Concept / Digitization / Preparation & QA / 3D Model / Build Infrastructure

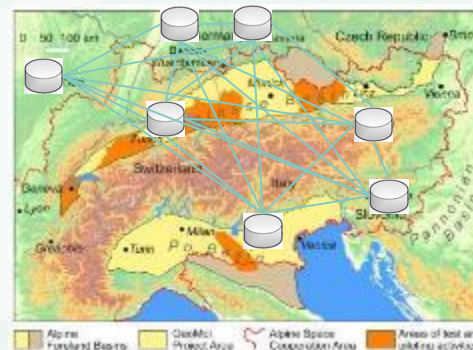

## Swisstopo Data Model

- \* Integration of data model
- \* Constrained Properties

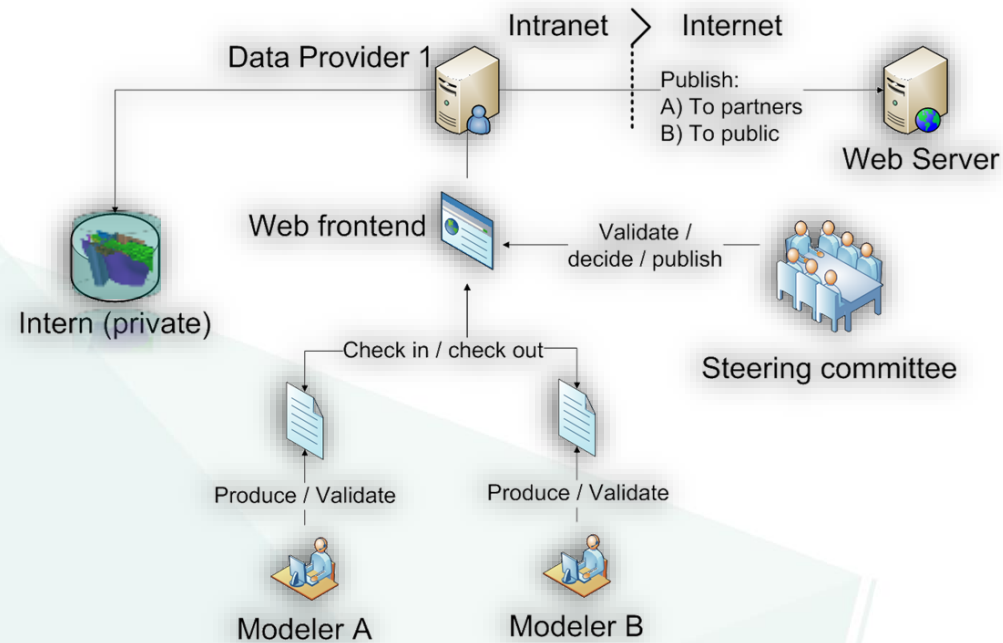

## Geomol

- \* Crossboundary projects

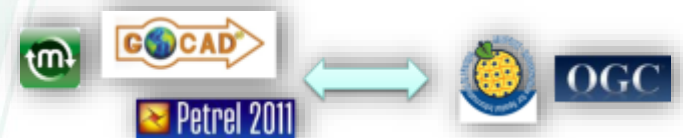

Geosciences in Space and Time

# What's GST?

- \* Model repository
- \* Storage solution for a team
- \* Software to realize a Service for 3D Geodata

# Conclusion

- \* Net based model exchange
- \* Versioning: Multi User Workflow
- \* GIS Integration
- \* Compatibility with proprietary systems
  - \* Cooperations between GiGa and software vendors
- \* **Developed for and together with European Geo Surveys**
- \* Geology meets INSPIRE
