- 7) **Wiki** Update – by Eddie Oldfield, Invitation for contributions – 3 minutes *[not covered fully in meeting]*
- 8) **Action Items / Close** – 3 minutes

# Actions

- No objection to advancing HL7 – OGC Statement of Understanding. *Discrete areas of work to be identified.*
- Co-Chairs will invite input on how OGC Standards can serve health application areas identified, and where work is needed; establish a liaison with WHO on health information systems.
- Co-Chairs will invite input on focal points for Engineering Documents; to inform potential IEs or demonstration projects.
- Update Wiki with meeting summary and PPTs, new content
- Advance activities in alignment with our Charter goals / Statements of Need; Recognition of implementations (e.g. for eHealth) is through national / sub-national entities
- Schedule more time for OGC Health DWG sessions
