

Metrias OGC-framework

Saerimner 2.x

Bertil Karlsson

Lead developer

bertil.karlsson@metria.se

Design decisions

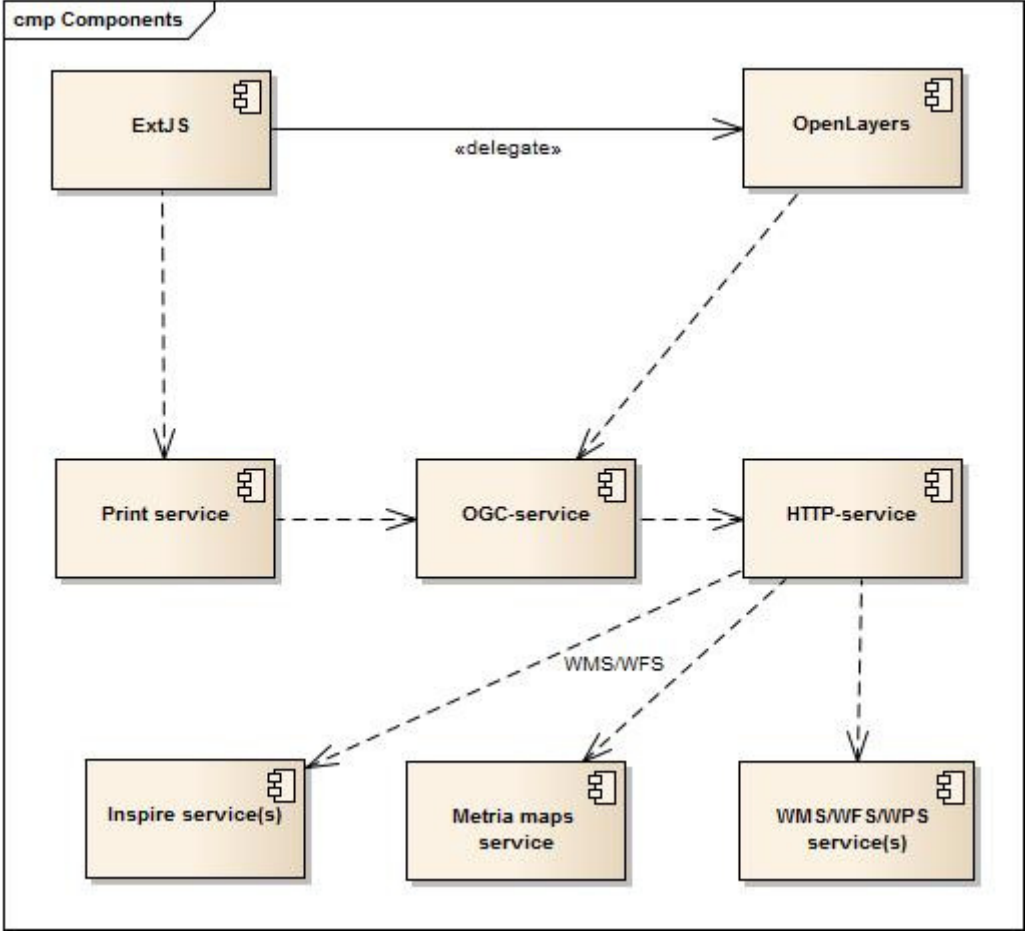

- Postgresql/PostGIS
- JBoss 7
- Java/JEE6
- ExtJS
- OpenLayers
- OGC services WMS/WFS/WPS

Overview

- Metriamaps service
- Inspire service
- HTTP management
- Print management
- Skins
- OGC management

Customizations

- Maptoolbar
- Mapinfo (I-button)
- Printings
- Queries
- Link to LM property info

Extension points

- New printings
- New queries
- Imports/exports
- Complex features incl. business rules

GIS server adaptations

- DPI handling
- GetFeatureInfo responses
- Instance authorization

And then some ...

- Short term archive management
- Identity management
- Metadata management
- Document management
- ...

Demo

- Viewer with service authorization
<http://testmaps.metria.se/mmapsdemo/>
- Complex feature editor with instance authorization
<http://skanova.vic-metria.nu:8080/skanova>
- Another editor (though on 1.x)
<http://tgisbeta.timmerweb.nu/tgis/>
